

An Internship Report
Of
Artificial Intelligence

Submitted
To
School of Computer Science and Engineering
IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of
B-Tech CSE (AI-ML)

By

Roll Number of Student :- 25SCS1003002303

Name of Student: PARTH SRIVASTAVA

Batch: 2026-27

CANDIDATE'S DECLARATION

I, **PARTH SRIVASTAVA**, do hereby declare that the internship report titled “**ARTIFICIAL INTELLIGENCE**” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering. All the references have been quoted and I have not taken as such any material from any other source. I affirm that this report is my own and has not been submitted to any other institute for any degree/diploma requirement, and further I shall be solely responsible for any kind of copyright violation in this regard.

Signature:-

Student Name: **PARTH SRIVASTAVA**

Roll No.: **25SCS1003002303**

ACKNOWLEDGEMENT

I am using this opportunity to express my gratitude to everyone who supported me throughout the Internship Program. I am thankful for their aspiring guidance, invaluable constructive criticism and friendly advice during this work. I am sincerely grateful to them for sharing their truthful and illuminating views on a number of issues related to this work.

I would like to thank the **InAmigos Foundation, Artificial Intelligence Intern** for providing me the opportunity and the structured platform to learn and gain hands-on exposure in the domain Of Artificial Intelligence . I am also thankful to my institute, IILM University, Greater Noida, and the faculty of the School of Computer Science and Engineering for their continuous support and encouragement.

I express my gratitude to my parents for their blessings.

Signature:

Student Name: **PARTH SRIVASTAVA**

Roll No.: **25SCS1003002303**

3. INTERNSHIP COMPLETION CERTIFICATE

**InAmigos[®]**
Uniting Minds For Change

CERTIFICATE OF INTERNSHIP
Parth Srivastava

This certificate acknowledges the successful completion of a Artificial Intelligence Internship at InAmigos Foundation starting from [15/08/2026] to [29/08/2026].

Offer Letter

Dear Parth Srivastava ,

We are pleased to offer you the internship position of **Artificial Intelligence** at InAmigos Foundation. Below are the details of your internship:

Duration of Internship: [Two Weeks].

Working Hours: The working hours for this internship are flexible, allowing you to adjust according to your availability. You are expected to dedicate a reasonable amount of time to the tasks and responsibilities assigned.

Location: This internship generally allows for remote work. However, if the role requires fieldwork, you will be expected to attend fieldwork at a site near your location.

Responsibilities

- Your primary role will be related to the field of your chosen internship. All major tasks assigned to you will align with this primary focus. Additionally, you will be expected to:
- Attend team meetings and actively participate in group discussions and activities.
- Complete tasks assigned by your superiors in a timely and efficient manner.
- Ensure that the tasks given to you are completed with the utmost care and responsibility.
- As a secondary responsibility, you will contribute to the organization's fundraising efforts, as this is crucial for your stipend.

Stipend: The stipend for this internship will be 20% of the donation raised by you during your internship period. The stipend is directly linked to the donations raised and may vary accordingly. Please note that while your main tasks will be aligned with your primary internship role, fundraising activities will be an essential part of your responsibilities to ensure the stipend. Fundraising is not a mandatory task for achieving a completion certificate. It is an optional task.

Terms and Conditions:

By accepting this internship, you agree to the following:

- InAmigos Foundation may use any content you provide, including reports, presentations, and other work, in a professional manner.
- Maintain professionalism and respect at all times.
- Adhere to all foundation policies and procedures during the internship.
- All work created during the internship will remain the property of InAmigos Foundation, unless otherwise agreed.
- Maintain confidentiality regarding sensitive information.
- Meet deadlines and complete tasks as assigned. Failure to do so may result in termination.
- Inform the foundation if you can no longer continue the internship, providing the appropriate notice.

Confidentiality: You are required to maintain the confidentiality of any information you receive during your internship. You are not permitted to disclose any sensitive or proprietary information related to InAmigos Foundation's operations or donors.

Termination: Either party may terminate this agreement with written notice, subject to the terms agreed upon.

Kindly sign below to confirm your acceptance of this offer and send the signed copy to foundation's email at hr@inamigosfoundation.org.in.

Authorized Signatory

Name: Ms. Shiwani

Designation: HR Head

4. PROJECT DESCRIPTION

4.1 Introduction

This report presents a detailed account of the 2- week Virtual Internship undertaken under the InAmigos Foundation, in the domain of “**Artificial Intelligence Intern**”. The internship was carried out from 15 August 2026 to 30 August 2026 as part of the requirement of the Bachelor of Technology (Computer Science and Engineering) programme at IILM University, Greater Noida. The primary aim of this internship was to bridge the gap between theoretical understanding of Artificial Intelligence and Machine Learning and their real-world, production-grade deployment. Over the course of the programme, the learner was exposed to industry-relevant tools and practices used to take AI/ML models from a research or prototype stage to a fully deployed, monitored, and scalable production system.

The internship followed a structured, week-wise curriculum that combined conceptual learning with hands-on assignments, weekly assessments, project documentation, and a final capstone project. On successful completion of all the requirements, including the final assessment test, a Virtual Internship Certificate was awarded by InAmigos Foundation.

4.2 Organization Profile

InAmigos Foundation is an organization registered under Registration Number U85300CT2020NPL010641 and associated with CSR Registration Number CSR00083159. The organization provides internship opportunities in various professional fields, including Artificial Intelligence, to help students gain practical exposure and develop relevant skills. During the internship, interns are expected to participate in team meetings, contribute to group discussions and activities, and complete assigned tasks efficiently and responsibly. The internship is generally conducted in a remote mode, with fieldwork opportunities when required..

4.3 Problem Statement

Although students learn various concepts related to Artificial Intelligence through their academic coursework, they often have limited opportunities to apply their knowledge in a practical and professional environment. The problem addressed during this internship at **InAmigos Foundation** was to gain practical exposure to Artificial Intelligence through assigned tasks and activities while developing professional skills such as teamwork, communication, responsibility, and timely completion of work.

The internship provided an opportunity to understand how **Artificial Intelligence** concepts can be applied through practical tasks and collaborative activities. It also focused on participating in team meetings, contributing to group discussions, completing assigned responsibilities efficiently, and maintaining professional conduct throughout the internship. The overall objective was to bridge the gap between theoretical knowledge and practical experience in Artificial Intelligence while improving teamwork and professional skills.

This version stays aligned with the InAmigos Foundation offer letter and avoids adding unsupported claims about cloud deployment, MLOps, APIs, or production systems.

4.4 Project Objectives

- To gain practical exposure to the field of Artificial Intelligence through an internship-based learning environment.
- To understand and apply Artificial Intelligence concepts while working on assigned tasks and activities during the internship.
- To develop practical and professional skills by completing tasks related to the selected internship domain.
- To participate actively in team meetings, group discussions, and collaborative activities organized during the internship.
- To improve teamwork, communication, and coordination skills by working with other interns and team members.
- To complete assigned tasks efficiently and within the given deadlines, following the instructions and guidelines provided by the organization.
- To gain experience in working in a remote internship environment and develop professional work discipline.
- To understand professional responsibilities and workplace ethics, including punctuality, active participation, and responsible completion of assigned work.

- To apply the knowledge gained during the internship to practical Artificial Intelligence-related activities and projects.
- To successfully complete the internship and demonstrate the skills and experience gained through the assigned work and activities.

4.5 Scope of the Project

The scope of this internship focuses on gaining practical exposure to **Artificial Intelligence** through assigned tasks and activities. It includes understanding and applying AI concepts related to the selected internship domain, participating in **team meetings, group discussions, and collaborative activities**, and completing assigned tasks efficiently within the given timelines. The internship also provides an opportunity to develop **teamwork, communication, coordination, and professional skills** while working in a remote environment. The scope of the internship was limited to the activities and responsibilities assigned by **InAmigos Foundation** during the internship period.

4.6 Technologies and Tools Used

- Artificial Intelligence: Concepts and practical activities related to Artificial Intelligence.
- Task Management: Tools and resources provided by the organization for completing assigned internship tasks.
- Collaboration: Online communication and collaboration tools used for team meetings, group discussions, and coordination.
- Documentation: Digital tools used for preparing, maintaining, and submitting internship-related work and documents.
- Remote Work: Online platforms and resources used to participate in the remote internship and complete assigned responsibilities.
- Project/Activity Work: Practical resources and tools relevant to the Artificial Intelligence tasks assigned during the internship.

4.7 System Architecture

The general workflow followed during the internship can be summarized in the following stages:

- **Artificial Intelligence Layer:** The internship focused on gaining practical knowledge and exposure to the field of Artificial Intelligence through assigned activities and tasks.
- **Task/Activity Layer:** Assigned Artificial Intelligence-related tasks and activities were undertaken according to the instructions and requirements provided by the organization.
- **Collaboration Layer:** Team meetings, group discussions, and collaborative activities were used to communicate with other interns and team members and to coordinate assigned work.
- **Work Execution Layer:** The assigned tasks were completed efficiently and within the specified timelines, with emphasis on teamwork and responsible participation.
- **Remote Work Layer:** As the internship was conducted remotely, online resources and communication methods were used to participate in meetings, discussions, and assigned activities.
- **Documentation/Submission Layer:** The work and activities completed during the internship were organized and submitted as required.
- **Completion Layer:** Successful participation and completion of the internship activities contributed to the overall internship experience and completion certification.

4.8 Methodology

The internship at **InAmigos Foundation** followed a structured **two-week methodology** focused on conceptual learning, practical activities, teamwork, and completion of assigned tasks in the field of **Artificial Intelligence**. The internship was conducted remotely and included participation in team meetings, group discussions, collaborative activities, and assigned tasks.

Week	Module	Description
1	Introduction to Artificial Intelligence & Task Orientation	Introduction to the Artificial Intelligence internship, understanding the objectives and responsibilities, exploring relevant AI concepts, and understanding the requirements and instructions for assigned tasks. Participation in team meetings and group discussions to clarify activities and coordinate with team members.
2	Practical AI Activities & Task Completion	Application of Artificial Intelligence concepts through assigned activities and tasks. Participation in collaborative discussions and team activities, completion of assigned work within the given timelines, review of completed tasks, and submission of required work as instructed by the organization.

The internship concluded with the successful completion of the assigned activities and responsibilities. The methodology was designed to provide practical exposure while developing **technical understanding, teamwork, communication, coordination, and professional skills.**

4.9 Expected Outcomes

- Improved understanding of Artificial Intelligence: Gain a better understanding of fundamental concepts and practical aspects related to the Artificial Intelligence domain.
- Practical exposure: Develop practical experience by working on assigned Artificial Intelligence-related tasks and activities.
- Task completion skills: Develop the ability to understand requirements and complete assigned tasks efficiently and within the specified timelines.
- Teamwork and collaboration: Improve the ability to work effectively with team members through participation in team meetings, group discussions, and collaborative activities.
- Communication skills: Develop professional communication and coordination skills through regular interaction with team members and participation in discussions.
- Remote working skills: Gain experience in working effectively in a remote internship environment using online communication and collaboration methods.
- Professional responsibility: Develop a sense of professional discipline, responsibility, punctuality, and commitment toward assigned work.
- Practical application of knowledge: Apply the knowledge gained during the internship to relevant Artificial Intelligence activities and assigned tasks.
- Successful internship completion: Successfully complete the assigned responsibilities and activities and gain practical experience that can support future academic and professional development.

4.10 Certificates of Completion and Communication Proof

The Internship Offer Letter issued by InAmigos Foundation, confirming the offer of an internship in Artificial Intelligence, is attached in Chapter 3 of this report. The

Internship Completion Certificate, issued upon successful completion of the internship, is also attached as proof of completion. These documents serve as official evidence of the internship and its successful completion.

I am sharing Completion_Certificate with you
